Compared to traditional MgO powders, Actmix®MgO-75GE F140 allows:

Dust free products with a complete filtration up to $63\mu m$, production environment improver.

Lower water absorption and guarantee of activity of MgO due to pre-dispersed masterbatch and vacuum packaging.

Tack free products at room temperature, convenience and accuracy on ingredients.

Lower Mooney viscosity at lower temperature (50 $^\circ C$), higher quality of dispersion.

Impurity free, blocked filter free in extruding product, scrap rate reduction and higher productivity thanks to filtration. Wider compatibility with other elastomers.
